This year, for the first time in many years, our Library had a thorough house-cleaning (walls, shelves, books, floors, etc.); the premises now not only look, but feel, fresh and attractive. For our new collection of reference books, Mr. Wayne B. Thompson designed a convenient book-case; and for the return of borrowed books at the down-stairs back door, a drop-box.

As an experiment the Library opened its doors to readers and borrowers Wednesday evenings during the summer; the result was fairly satisfactory, and may lead to a similar experiment next summer.

Like many other New Hampshire towns, Sandwich now has a thriving organization known as "The Friends of the Library", with some twenty-five members; the Chairman is Mrs. Raymond H. Mauch. The purpose is to give volunteers a chance to help the Librarians in such tasks as cataloguing, care of books and finding ways of showing the community that the Library belongs to all of us, and exists for our benefit and enjoyment. The enthusiasm already shown is very encouraging for the future.

The Library has 488 registered borrowers. During the year, 278 books have been added; none have been discarded; and the total on hand December 31st was 5,353. The State bookmobile has lent us 958 books.

Forest Fire Warden's Report

Fire records are made by people — those who cause fires and those who control them. Your forest fire warden, deputy wardens, fire chief and firemen have, in spite of a prolonged drought, made one of the best fire control records in recent years. Despite a very dry spring, we in New Hampshire working together, have substantially reduced our fire incidence (885 in 1965 to 595 in 1966.)

This enviable record is largely due to two factors:

1. A closely coordinated and integrated state-town organization jointly carrying out programs of forest fire prevention, training and suppression with dedicated personnel.
2. Your appreciation of our forest fire control program and your individual effort in practicing fire prevention.

Statistics show, however, there is room for improvement. Major problems are still with us; (1) the careless disposal of cigarettes; (2) the householder's carelessness in burning rubbish; (3) the failure of woodlot owners and contractors to completely extinguish their brush burning fires; (4) failure to extinguish camp fires; (4) unsupervised children playing with matches.

New Hampshire has 4,339,000 acres of woodland to be protected. In 1966 we experienced 595 forest fires on this area and restricted acreage burned to 395 acres — a fine testimonial to the efficiency and dedication of the men who make up our forest fire control organization.

1. If you must burn you will need a permit. Permits are not issued between 9:00 A.M. and 5:00 P.M. except on rainy days. Permits are not needed when the ground is covered with snow. To minimize risk the best way to dispose of rubbish is at your authorized town or municipal dumping area.
2. Be sure all discarded smoking material is out.
3. Don't leave a live camp or cooking fire.
4. Most important - Instruct your children that matches are not play things.

TRULY - ONLY YOU CAN PREVENT FOREST FIRES
